

Transport and Travel Rules

NDIS travel and transport rules can be difficult to understand and navigate. Kirinari can help navigate you through what can be a complex journey. Here is an easy to understand version of some of these rules.

This information relates to general travel arrangements and is subject to change by the NDIS. It is correct as at January 2024. Note: Except for general transport, time limits apply for charging travel depending on where the support is delivered. The NDIA uses the 2019 Modified Monash Model (MMM) to determine whether a location is a city, rural, remote or very remote.
