# Hume Day Program Activity Planner

## The **Imperfect** Project

The imperfect project is a Social Enterprise project run with the support of Kirinari Community Services. Kirinari operates a number of Day Programs across regional Australia where people with a disability attend activity-based programs for skill development and work towards life goals.

Within these Day Programs, several of our customers create the 'imperfect' range with the assistance of a Support Worker. All funds generated from sales of the imperfect range are reinvested back into the activities to fund the project's ongoing activities. No two items are the same. They are each identifiable through their individuality and uniqueness. All our items are handcrafted by Australians living with a disability.

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
