

# Orange, your future career starts here!

We're excited to announce that the Rise Training program – delivered in partnership with Jigsaw Australia – will soon launch in Orange NSW.

Since 2024, Rise Training has been transforming lives in Albury, providing people with disability real workplace experience, skill development, and the confidence to move into meaningful, paid employment.

The program is built around a simple belief: the best way to get job-ready is through real work.

We'll be hosting two information sessions where you can meet the team from Rise, and learn more about this unique program, and how it might benefit you.

You can let us know you're interested in participating in the Rise Training program by completing the [Rise Training Expression of Interest form](#).

## Rise Orange Information Sessions – Training, Employment and Business Solutions
